

## SEMI-AUTOMATIC BARREL WASHER WITH ELECTRIC LIFT 225-300-600 LITERS

Portable equipment equipped with a multidirectional rotating washing system that allows a jet of high-pressure cold or hot water to travel through all interior points of a barrel in 90 seconds, performing an optimal and safe washing.

In this model, an electric motor is responsible for lifting the barrel to place it in the washing position, and for returning it to its loading and unloading position.

- ✓ It includes an electrical panel with a programmable wash timer, electrical protections, and an emergency stop.
- ✓ All sensitive parts of the machine (motor, reducer, etc.) are protected against water.
- ✓ Its design ensures a long lifespan and is entirely constructed of stainless steel, making it easy to maintain and clean.

### Optional:

- ✓ Guide carriage.
- ✓ Multifunction steam wand Pressure model VP
- ✓ Custom programmable logic controller available.
- ✓ Suitable for barrels of 225 – 300 – 600 liters

\* NOTE: Auxiliary equipment (pressure water machine and steam generator) is not included in the standard equipment.

Power (HP)	Dimensions* (LxWxW)	Empty weight (kg)	Three-phase voltage (V)	Material	Minimum Wash Time	Maximum Water Temp. (°C)	Impact Pressure (bar)	Required Flow Rate (l/m)
0.25	1780 x 1210 x 820	172	240/400V 50-60Hz	AISI 304 Stainless Steel	90"	60-90	80-150	15

## SEMI-AUTOMATIC BARREL WASHER MODEL N 225-300 LITERS

Portable equipment equipped with a multidirectional rotating washing system that allows a jet of high-pressure cold or hot water to travel through all interior points of a barrel in 90 seconds, performing an optimal and safe washing.

In this model, a counterweight system facilitates the lifting of the barrel to place it in the washing position, and returns it to its loading and unloading position.

- ✓ It includes an electrical panel with a programmable wash timer, electrical protections, and an emergency stop.
- ✓ All sensitive parts of the machine (motor, reducer, etc.) are protected from water.
- ✓ Its design ensures a long lifespan and is entirely constructed of stainless steel, making it easy to maintain and clean.
- ✓ Selection of different barrel washing and treatment programs.

### Optional:

- ✓ Guide carriage.
- ✓ Multifunction steam wand Pressure model VP
- ✓ Custom programmable logic controller available.

\* NOTE: Auxiliary equipment (pressure water machine and steam generator) is not included in the standard equipment.
