

Quality, Health, Safety and Environment Policy

Unitech Engineering Solutions LLC aims to achieve the highest standards of Quality, Health, Safety and Environment, integrating the principles of sustainable development throughout its business of manufacturing and delivery for tanks, winemaking equipment, packaging & handling equipment and other types of stainless-steel equipment and accessories designed for food and chemical industry.

Quality, Health, Safety and Environment Management and risk assessment fundamentals are integrated in all business processes.

Unitech Engineering Solutions LLC identifies the health and safety of its employees, contractors and visitors, the satisfaction of its interested parties and the protection of the environment as integrated key Objectives of its business; the entire organization is oriented towards achieving these goals openly and transparently.

Company is committed to training all its employees in the appropriate use of its Quality, Health, Safety and Environment Integrated Management System, strengthening its management through updating of professional and managerial skills, emphasizing employee evaluation and motivation, and complying with the ethical principles established in its Code of Conduct.

Nothing is more important than the health and safety of everyone who uses our products and who works for us. Working safely is a condition of employment. All occupational injuries and work-related illnesses can and should be prevented, so we are committed to eliminating hazards and reducing risks associated with processes and IMS. The company will act through the consultation and participation of its workers for the development, planning, implementation, performance evaluation and actions to improve the Integrated Management System.

The Quality and conformity of our products and services is our main competitive advantage.

The requirements of the Integrated System standards, legal applicable local, European and international norms and expectations of our customers and interested parties – must be satisfied.

Differentiation is attained through operational excellence and the development of innovative and reliable products and services.

We are committed to developing a long-term sustainable business, preventing pollution and minimizing the environmental impact of our operations and processes, making the most efficient use of natural resources and energy saving, by fulfilling the organization's compliance obligations.

Unitech Engineering Solutions LLC recognizes the importance of implementing this Policy throughout its Quality, Health, Safety and Environment Management System, covering the entire supply chain from suppliers to final customers. The company and management take accountability for the effectiveness of IMS and commit to comply with legal, applicable requirements and all other requirements relating to Quality, Health, Safety and Environmental issues to which it subscribes.

Top management communicates this Policy throughout its organization, trains its employees in the appropriate use of its Quality, Health, Safety and Environmental Management Systems and engages them in the regular setting, measuring and revision of Objectives.

Unitech Engineering Solutions LLC undertakes to keep this Policy updated, to allocate necessary resources and means to implement, maintain and continuously improve its Integrated Management System, its Quality, Health, Safety and Environment performance based on [ISO 9001](#), [ISO 14001](#), [ISO 45001](#), legal and other applicable requirements.
